

Leading the Way for Waste Management at the Surfex 2010 Exhibition

With approximately 1500 delegates and 225 companies exhibiting, Surfex is the largest and most comprehensive UK exhibition for the surface coatings, printing, inks, adhesives, corrosion and construction chemicals industries.

The exhibition was held at the Harrogate International Centre (HIC) on 8th and 9th June 2010.

As the only waste management company exhibiting it gave producers a unique opportunity to discuss their requirements, which enabled Tradebe to introduce our extensive services and innovative technologies to waste management and environmental services.

Niki Davis from Stort chemicals scooped the champagne from the prize draw. Stort Chemicals, distributors to the coating industry were also exhibiting at Surfex. We look forward to developing our business relationship following on from our initial meeting at the exhibition.

Anne Bishop (UK Commercial Manager) and Bruce Wilson (Sales Manager) were on hand to provide their extensive technical knowledge whilst Louise Bowles (Customer Relations Manager UK) and Beverley Andrews (Customer Services Team Leader) demonstrated Tradebe's dedication towards giving the highest possible customer care and support through our "Happy to Help" approach to our clients.
